### EUROPEAN NOVELTIES.

Lander Little Rock Los Angeles

Ringling Brothers Circus Programme This Year Brimful of Unique Foreign Acts.

There are more exclusive European noyelties in the great program of Ringling Brothers' World's Greatest Shows this season than were ever before gathered in a circus performance in this country. It is the first appear-ance here of all these artists, and the progressive spirit of this wonderfully successful amusement firm was never better illustrated. The most sensational riding acts ever performed are to be seen at each performance in the unique feats of the four Eldreds. These riders have astonished all Europe by their extraordinary equestrianism. Four peo-ple jumping from the ground to a running horse's back at exactly the same time, jumping backward at the same in-stant to the same flying position, side somersaulting over two fleeting horses, and executing difficult acrobatic feats while all four are on the back of a speeding horse, are several of the deeds that they accomplish that were never done before. The four Eldreds are without a peer in the whole world in sensational bareback riding. The four Bedinis, Parisian idols, are also in this high class, and make their first appearance here with Ringling Brothers. They inhere with Ringling Brothers. They in-troduce riding and leaping dogs in their novel and hazardous acts. The six Glin-serrettis, who turn triple somersaults from shoulder to shoulder, are acrobats of European celebrity. The Tasmania troupe, the eight Colini-Clarons and the troupe, the eight Colini-Clarons and the Dollard troupe, present their specialties here for the first time, and have cre-ated a sensation. To bring these artists to this country is another evidence of the progressive policy of Ringling Brothers, which has separated their great shows from all others, both in public favor and exclusive novel and expensive features. Ringling Brothers are leaders in the circus part of the amusement world, for which the public at large is appreciative, as may be seen in the wonderful crowds this show alone attracts.

# HEAVY BEET CROP.

J. P. Holmgren Tells of Conditions About Bear River City

J. P. Holmgren of Bear River City, who is in Salt Lake for a brief visit, is sanguine over the agricultural outlook at his home. Mr. Holmgren says that the beet crop is unusually good this season. The acreage is larger than usual and the yield, he thinks cannot be excelled in the State. He estimates it at nearly twenty tems to the acre in the valley. Lucerne and wheat are fine crops and the farmers, with an abundant water supply from the Bear river canal, are prosperous. Many newcomers are settling in that part of Bex Elder, both from other counties in the State and from the East. The towns of Bear River City, Garland and Tremont are having a healthy growth. J. P.
